White Gate Cattle Co. farm - 1 mile south, 1 3/4 miles
west of Willey - 22166 270th Street, Carroll, IA

Steak Lunch starting at 11:30am
At the Shop Building - White Gate Farm
starting at 11:30am and available
until sale time at 1pm

Welcome to our 6th annual auction in Willey, IA. We've focused our efforts for the past 17 years with a goal of producing functional cows that stay in the herd and cattle that perform in the feedlot with a premium on the rail. Those 2 goals can easily be at odds with each other. More today than ever before, a big carcass weight pays the bills for cattle feeders. With current market prices, less than 50 lbs. of carcass weight offset the premium for a Prime on the grid. The genetics to target top dollar in the feedyard in most cases are not the same to make profitable replacement females. We choose different matings for high-performance terminal goals and others with a maternal focus. A new addition inside the back cover of this year's book is a rating chart to help sort the bulls based on these goals for your operation. Some tools to help us hit both goals at the same time are proven genetics, heterosis, and testing these theories in the feed yard. We love what the Angus and Simmental breeds bring to the table and believe they complement each other very well. With how we manage these cattle and the use of more proven genetics we may give up few numbers on paper. Examples would be the yearling weights on our fall bulls as we slowly grow them for this sale, and a lower EPD on a mature cow or proven bull, yet we're fully confident in the performance of these cattle based on the track records of their genetics. We believe the numbers on paper are a valuable tool, but only 1 piece of the full picture. We're excited about the progress we've made with this year's group of cattle and would love to talk further on our breeding decisions and thought process as we put a rating on these genetics. We Sincerely thank you for your interest in our program and thank you for the opportunity to hopefully work with you and yours for years to come.

Terms and Conditions: Terms of sale are cash or check. Please settle for cattle promptly. Cattle are sold under terms and conditions as recommended by the American Angus Association.

Herd Health: The cattle are on a complete health program and are up to date with vaccinations, have been dewormed, and will have two rounds of scour guard on the spring bred heifers. Breeding Soundness Exams will be completed on the bulls along with pre-breeding and pinkeye vaccinations prior to sale. The bulls are virgin bulls or have passed a negative trich test prior to sale.

Guarantee: All bulls selling for \$4000 or more are guaranteed against breeding injury for the first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bulls. If a replacement bull is available, he will be provided, or if the buyer prefers, credit toward the following year's sale will be given, less salvage value of \$2500. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. Claims must be made by Sept. 1, 2026 and require a copy of veterinarian inspection to determine injury. Should the bull die, however, he will not be covered under any guarantee. We recommend the purchase of livestock mortality insurance to mitigate this type of loss. White Gate Cattle Co. is not liable for more than the net purchase price of the animal.

Liability: All persons who attend the sale or open house do so at their own risk, legal or otherwise, for their safety or for the behavior of the animals. The owners and staff assume no liability for property loss or accident that may occur.

Retained Interest: White Gate Cattle Co. is retaining a 1/3 revenue sharing interest on all bulls unless otherwise stated, and the right to collect semen for within herd use at time when convenient for the new owner. Full possession and full salvage value sell. Any exceptions will be provided in supplemental information prior to sale.

Delivery and Pickup: Free delivery within the state of Iowa, and we will make every effort to help assist with trucking arrangements outside of Iowa. Will contact in the later part of March to arrange delivery times and dates this spring. All cattle must be paid for before leaving the farm.

Announcements: Announcements on the auction block will take precedence over any other publications. Supplemental information on the bulls will be provided at the sale as well as liveauctions.tv. liveauctions.tv/auction/5154/detail

Online Bidding: Online bidding will be available at Liveauctions.tv as well as updated videos on all animals selling. For more information, please reach out.

ANGUS BULLS

• We're excited about this year's lineup, so I didn't know where to start with our catalog order. We went with 2 El Guapo sons and a Tex Playbook out of his mother for lots 1-3. El Guapo 1016 was our top selling bull in our 2023 sale. Nothing in extreme and everything in proportion describes him as having no holes in everything we look for in good cattle, and comes from an outstanding 2014 born highly productive cow we purchased from the TC Ranch in Franklin, NE. Lot 1 is a cool looking rascal and out the dam of our lot 1 bull from our 2025 sale. She's another high performing 10 yr old TC Cow. I would describe this bull with consistent performance with an excellent phenotype.

• At 12 years of age this bull's mother, El Guapo's Dam stands out in the pasture with a high performing correct design. Excellent on her feet with a perfect udder. Hard to check the boxes of terminal performance and maternal strength with 1 bull and this one does it as one of the best in the lineup. 4062 should leave excellent females to build a purebred herd around.

• Powerful growth and phenotype describe this bull. If you've followed our program in the past, you've heard us talk about this bull's mother Collison Ellie, she's one of the most powerful, big boned, angus cow's we've seen, who comes from the same cow family as the 2020 National Junior Angus Bred & Owned Champion Heifer. If you're looking to make purebred show cattle or sell cattle by the lb. you won't be disappointed with his calves. Take a peek at his 1/2 sister lot 29.

**PVF Insight 0129 -
Sire of Lot 4**

WGCC Insight 4054 - Lot 4

ANGUS BULLS

• This bull is out of an excellent young cow loaded with a great maternal pedigree. His sire TC Thunder 2519 is highly proven to us. We purchased him in 2014, used him heavily in our commercial heifer projects, and he keeps giving us great ones. He's out of TC Aberdeen's Mother and should get used more often. 4041 should give an excellent combination of performance and maternal strength in his calves.

WGCC Southern Charm 4039 - Lot 6

• This bull is awesome, and maybe should have been lot 1, he's exactly what we strive to breed. He come's from an outstanding cow family. His dam is a never miss Broken Bow daughter out of pathfinder dam from the TC Ranch herd. Sired by Southern Charm who we love for his unique combination of elite maternal, performance, and carcass traits. If the saying is true that you replicate great cows through their son's, we should have kept this one for a herd bull. His mother's last heifer calf sells bred as lot 24, you'll love them both on sale day.

• I can't think of much better calves to feed and sell on the grid than what this bull should leave behind. His mother gave us one of our top feed efficiency bulls in 2023 with an adjusted feed to gain of 3.63 to 1. To put it in perspective, that would cost about \$200 less than the estimated industry average to put on 600 lbs. of gain. KCF Bennett Exponential and 8040 should be an excellent combination of performance and carcass value.

• I heard once that a bull's mother keeps popping up in the offspring of his calves. If that's the case, we shouldn't be selling this bull. I can't say enough about his mother who will be 14 next month with another great bull calf at her side. She is a commercial angus out of Conneally Final Product and catches your eye from a distance every time you walk into the pasture. Outstanding combo of performance and maternal with this bull.

• Another 231A out of an exciting young cow for us. She has the look of the perfect maternal cow and has given us some outstanding performance as well. Her first 2022 born calf, yielded a 895 lb. Yield Grade 3 carcass that graded Prime. We think these genetics can get us there with great efficiency as well.

• Great phenotype, performance, and maternal with this bull. He's out of an excellent 2018 born commercial Pays to Believe daughter, who has an outstanding calf at her side again this year. Sired by Logic his calves should be pretty cool.

SIM BULLS

• Excellent maternal genetics behind M487. He's out of our herd bull we purchased from Ruby Cattle Co for his excellent combination of performance, carcass ratios, and excellent cow family. His dam is about as perfect of a 7-year-old cow you could ask for, and looks to have the makeup for longevity as well.

• Another 231A out of one of my favorite power cows in the herd. She's larger framed with very correct feet, an excellent udder, and is sired by Leachman Prophet who's calves have excelled on the grid for us over the years. The epd's say average on carcass but the pedigree and track record would say otherwise. Tons of power with some great maternal as well.

• There should be high performing calves coming from Lot 22 who comes from a cow we purchased from Iowa State University. We have some calves in the feedyard out of her last bull we sold on the 2023 sale that will knock it out of the park. Can't wait to see what N505 leaves behind.

COWS/HEIFERS

- This cow coming with her 2nd calf is pretty tough to let go of. She's extremely massive with an excellent set of feet under her and had great maternal instinct with her first calf we retained in the herd. I love females like this that can breed in so many different directions, whether its competitive show cattle or high-performance cattle. Her dam is a Broker that never misses for us, she sired the meat wagon baldy L376 Cowboy Logic son for those of you at last year's sale.
- Due approximately May 1, 2026 to Rubys Genesis 265K (ASA# 4135998) or
- WGCC Southern Charm 3044 (AAA# 21152316)
- (Retaining the right to collect 10 transferable embryos at seller's expense)

WGCC Ellie 5007 - Lot 29

- Phenotype and Growth are in this heifer's pedigree. Her mother, Collison Ellie, is one of the most massive, big boned angus cows we've seen, who comes from the same cow family as the 2020 National Junior Angus Bred & Owned Champion Heifer. This heifer is stout with a very sound running gear along with an excellent temperament and hair for the show ring. Should be a great club calf mother when her show career is complete. Maternal brother sells as lot 4.
- Weighed 972 lbs. Feb. 2, with 49.25" hip height
